

**PHYSICAL EXAMINATION OF STUDENTS
REGULATION**

School nurses shall keep a file of certificates of physical examination for each student under their responsibility. Letters will be sent with the school calendars annually informing parents and guardians of the requirements for physical examinations for entering students and for students in Pre-K, Kindergarten and 2nd, 4th, 7th and 10th grades.

Students who do not have certificates of physical examinations on file by October 1st or within a month of entry will be scheduled by the school nurse for physical examinations by the school physician in accordance with Policy 5420.2.

School announcements of scheduled dates for these physical examinations will be made far enough in advance to allow parents or legal guardians to make arrangements for private examinations by family physicians if they wish to do so.

Adopted: June 21, 2006
