

SUSPECTED CHILD ABUSE AND MALTREATMENT REGULATION

New York State Law (Child Protective Service Act of 1973, as amended) provides for reporting of suspected cases of child abuse. These Regulations are designed to implement this law within the District and to help protect students from the harmful effects of child abuse.

Definitions

The definition of child abuse and maltreatment is established by law.

“Abused Child” according to Social Services Law and the Family Court Act, is a child less than 18 years of age whose parent or other person legally responsible for his care:

- a. inflicts or allows to be inflicted upon such child physical injury by other than accidental means which causes or creates a substantial risk of death, or serious or protracted disfigurement, or protracted impairment of physical or emotional health or protracted loss or impairment of the function of any bodily organ; or
- b. creates or allows to be created a substantial risk of physical injury to such a child by other than accidental means which would be likely to cause death or serious or protracted disfigurement, or protracted impairment of physical or emotional health, or protracted loss or impairment of the function of any bodily organ; or
- c. commits, or allows to be committed, a sex offense against such child, as defined in the penal law, provided, however, that the corroboration requirements contained therein shall not apply to proceedings under this article.

“Neglected or maltreated child” according to the Family Court Act, is a child less than 18 years of age:

- a. whose physical, mental, or emotional condition has been impaired or is in danger of becoming impaired as a result of the failure of his parents or other person legally responsible for his care to exercise a minimum degree of care:
 - (1) in supplying the child with adequate food, clothing, shelter, or education in accordance with the provisions of Part One, Article 65 of the Education Law, or medical, dental, optometrical

or surgical care though financially able to do so or offered financial or other reasonable means to do so; or

- (2) in providing the child with proper supervision or guardianship, by unreasonably inflicting or allowing to be inflicted harm, or a substantial risk thereof, including the infliction of excessive corporal punishment; or by using a drug or drugs; or by using alcoholic beverages to the extent that they lose self-control of their actions; or by any other acts of a similarly serious nature requiring the aid of the court; or who has been abandoned by their parent(s) or other person legally responsible for their care.

b. who has been abandoned by their parent(s) or other person legally responsible for their care.

“Person legally responsible” includes the child’s custodian, guardian, or any other person responsible for the child’s care at the relevant time. Custodian may include any person continually or at regular intervals found in the same household as the child when the conduct of such person causes or contributes to the abuse or neglect of the child.

“Impairment of emotional health” and **“impairment of mental or emotional condition”** includes a state of substantially diminished psychological or intellectual functioning in relation to, but not limited to, such factors as failure to thrive, control of aggressive or self-destructive impulses, ability to think and reason, or acting out of misbehavior, including incorrigibility, ungovernability, or habitual truancy; provided, however, that such impairment must be clearly attributable to the unwillingness or inability of the parent, guardian, or custodian to exercise a minimum degree of care toward the child.

Reporting procedures and related information:

1. All District employees, including building administrators, teachers, registered nurses, doctors psychologists or psychiatrists, and all other employees who come in contact with students are required to report all cases of suspected child abuse or maltreatment to the Building Principal.
2. The Building Principal is required to:
 - a. inform the Superintendent of Schools of the information received; and
 - b. either:
 - (1) phone the New York State Child Abuse and Maltreatment Center (800-342-3720) and inform them verbally of the problem; or

- (2) contact the above agency by telephone facsimile machine on a form supplied by the Commissioner of Social Services; and
 - c. file a written report with the local child protective services agency and the statewide central registry of child abuse and maltreatment within forty-eight hours after the above report.
1. The Building Principal may arrange for photographs to be taken of the areas of visible trauma on the child, and/or, if medically indicated, cause an examination to be performed by medically qualified personnel. Such action may be performed at public expense if they will provide appropriate documentation when filing the report. A camera shall be kept at the school and be available for this purpose.
 2. The written report that must be filed shall include all information which the Commissioner of Social Services may require.
 3. The school physician shall notify the appropriate police authorities or the local child protective service to take custody of any child the physician is treating, whether or not additional medical treatment is required, if they believe the child is in danger.
 4. If it should be necessary for Child Protective Services to interview a child at school to ascertain whether they have been abused or maltreated, or to obtain documentation of such acts, the interview should be conducted in the presence of a school official, unless circumstances require otherwise. The school official shall examine and verify the credentials of Child Protective Services worker(s) before allowing such worker(s) to either interview the child or to examine the child's records.
 5. If sexual abuse is indicated, the presence of a same-sex staff member during the interview is appropriate.
 6. The Superintendent can request a summary report of an investigation of a case referred to Child Protective Services. The adult subject of a case of suspected child abuse or maltreatment has a right to a copy of all information in the State Central register. Personnel have the right to request that information which would identify the individual making the report be withheld if furnishing such data might prove detrimental to the safety or interest of that individual.
 7. All District employees who are required to report suspected child abuse shall be required to attend ongoing training sessions regarding identification and reporting of all cases of suspected child abuse.

8. All District employees who are required to report suspected child abuse shall be provided with a copy of these regulations and the related Board policy concerning child abuse and reporting requirements.
9. Only one report of any suspected abuse is required.
10. School personnel who, in good faith, make a report or take photographs of injuries and bruises have immunity from any liability, civil or criminal. The good faith of any person required to report cases of child abuse or maltreatment is presumed.
11. School personnel who have reasonable cause to suspect that a child has died as a result of child abuse or maltreatment shall report that fact to the appropriate medical examiner or coroner.
12. Any person required to report suspected cases of child abuse or maltreatment and who fails to do so may be found guilty of a class A misdemeanor and may be held civilly liable for the damages caused by this failure.
13. If a report of child abuse or maltreatment has been determined to be unfounded, all records, both in the State Central Register and in school files, shall be expunged.
