

EMERGENCY CLOSINGS

The Board of Education recognizes the need to close school for all or part of a day or to delay the opening of school in the event of inclement weather or for other emergencies that could impact student safety. The Board authorizes the Superintendent of Schools or his/her designee to implement this policy.

When school is closed, all related activities, including athletic events and student activities, will ordinarily be cancelled for that day and evening.

The attendance of personnel shall be governed by their respective contracts.

The Superintendent of Schools or his/her designee must appropriately convey this information to the public and to the Board of Education.
