

NY-MEP STATE-WIDE VIRTUAL ROBOTICS CAMP 2021

Pre-camp Activities (self-driven):
July 26 – July 30, 2021
Virtual Program (instructional):
August 2 – 13, 2021

In this virtual camp, students will learn STEM concepts, design process, and apply them to design, build, and program robots using a novel robotics education platform, SnappyXO. The final project will have an overall focus of PPE innovative solutions.

APPLY TODAY!
